Dear Dr. Ismara

Thank you for your message and the attached paper.

I have examined the paper and think that we may publish it in the *Journal of Advanced Research in Dynamical and Control Systems (JARDCS)*, obviously subject to positive reports from the references.

We will be pleased to consider your paper for inclusion in the JARDCS, Volume-11, 12-Special Issue, 2019.
Attached, please find a kit for authors. This should assist you in the preparation of your article.

In preparing your article, you should not make any changes to the template, and strictly follow the Instruction for Authors. Please do not use bold faces in the article nor in the figures! The abstract must not exceed 12 lines (do not condense or expand the text). Also please note that a single line space must be placed between the paragraphs, figure, captures, equations, formulas, etc. Further, would you please supply us with the original, unsaved figures, so that we can access them and make necessary corrections if required? We accept figures generated in Ms Word, Excel and Visio. More information can be found at the journal's site:

https://www.jardcs.org/instructions-for-authors/

Within the figures and tables, the texts should not be bold, and the first word should start with a capital letter and the following words should be written starting with a lower case (e.g. Group special actvities). When in doubt please look at the papers published in the JARDCS journal.

Also, please note that submitted articles must be accompanied by the fully filled in and signed Submission Form & Payment Details. However, you do not need to pay the
publication fee at this stage. You will be asked to do so, when the article has been refereed positively.

Please supply us with the original Figure 1, not a screen capture, as we may need to make editorial corrections in it. Also, you must arrange the References as per the APA style.

I look forward to receiving your contribution to the JARDCS journal. Kindest regards

**Dr. S. Sanjers**
