| 13.  |         |              |
| 14.  |         |              |
| 15.  |         |              |
|      |         |              |

## **FORM**

Design a form base on information below:

- a. Form function is to ask goods from warehouse
- b. Form will be filled by hand writing
- c. Form for internal use only
- d. Form must contain information below:
  - 1) Division name that need the goods
  - 2) Purpose of goods use (production, service and maintenance, investment)
  - 3) Form filling date
  - 4) Code and name, unit, and quantity of the goods
  - 5) Signature of department chief that ask the goods
  - 6) Signature of department chief that approving good need
- e. Goods that is asked not more than 5 items

|                             |               |  |
|                             |               |  |
|                             |               |  |

## **INTERNAL CONTROL SYSTEM**

In the cinema, a charier sits in her office near the entrance door, accept money from the customers and operating a ticket machine that print ticket with sequence printed number. To enter to the cinema, all customers must show the ticket to the door guard. Door guard will rip the ticket, half of the ticket will give to the customers and the rest will be kept into locked box by the guard.

- a. Show all of internal control from the case above
- b. What should the manager do to make the internal control more effective?
- c. If cashier and door guard make a collusion to get profit from internal control weaknesses, what should they do?
