I. DESKRIPSI MATA KULIAH

This lesson is designed to offer students with the development of British literature which is part of British culture, which covers the Old Period up to the Modern Time. These divisions show the relationship between literature and its socio-cultural background from which it emerged. Besides, the course will also examine the factors which have significantly influenced the social environment. It is hoped that after exploring this basic outline of English literature, students' perspective on literature will be broadened. Since literature is mental evidence, students, then, will accept that literature is more than a mere story.
