I. DESKRIPSI MATA KULIAH

Translation is one of the regular units in the Translation Studies Curricula of English Language and Literature Study Program and English Language Education Study Program, with a credit point value of 2 points (2CPs). It is a pre-requisite unit to Translation Studies Program, with a C grade at the lowest. The unit requires students to undertake bilingual translating practice that involves English texts as Texts 1 and Bahasa Indonesia (BI) as texts 2 and vice versa, all of which use graphic channels of language. It aims at providing students with pre-intermediate bilingual translating practice at the level of discourse semantics, which deals with texts that involve story and information familiar genre families and types in particular (e.g. story: narratives, recounts; information: reports, descriptions) and at the level of lexico-grammar, which deals with sentences/clauses, groups/phrases, words and morphemes. Assessment for the unit is based on regular assignments, **work produced, presentations/performances and discussions, portfolios**, special assignments and or **mid semester and semester examinations**.

II. STANDARISASI KOMPETENSI MATA KULIAH

At the end of the course, students are expected to be able to attempt a good translation from English into Bahasa Indonesia and from Bahasa Indonesia into English at the level of discourse semantics and lexico-grammar, in the forms of sentences, clauses, phrases, words and morphemes, in the stories and information genres.
