I. Deskripsi Mata Kuliah

This subject provides students with advanced skills in comprehending oral discourses through recorded voice of native speakers. Materials are presented in a variety of functional texts with exercises focused on identifying cultural contents of a given text, deducing meanings from contexts, discovering topics and main ideas, recognizing discourse markers and language functions, and taking notes.

Students should attend at least 75% of the lectures, and participate in class exercises and doing the required assignments, both individual and in groups. Student’s classroom activities include individual work, pair work, and group work. Evaluation on students’ achievement is based on classroom participation, home assignments, quizzes, the mid-semester test, and the final test.
